

TITLE: Supima Association of America

DATE RANGE: 1950's-1980's

CALL NUMBER: FM MSS #99

PHYSICAL DESCRIPTION: 15.5 linear feet (16 boxes)

PROVENANCE: Records were held by the Supima Association of America and donated to the Arizona Historical Foundation in 1993.

COPYRIGHT: The Arizona Historical Foundation owns the copyright to this collection.

RESTRICTIONS: This collection is unrestricted.

CREDIT LINE: Supima Association of America, MSS #99, Arizona Historical Foundation

PROCESSED BY: Elizabeth Scott, March 2006

HISTORICAL NOTE: Founded in 1954 in El Paso, TX, the Supima Association of America, is a non-profit organization established to promote American Pima cotton growers. Still in existence today, the Association is comprised of members from the states of Arizona, California, New Mexico, and Texas and has its headquarters now in Phoenix, AZ.

In 1978, the Arizona Cotton Planting Seed Distributors and the Supima Association of America merged into one organization charged with overseeing the production and distribution of all certified American Pima. Today, the Association's major objective is "to promote the increased consumption of American Pima cotton around the world." Supima sponsors research programs and works closely with cotton industry organizations and government agencies to ensure a fair and viable marketing environment for American Pima cotton growers. Supima also provides crop and market research to its grower-members and licensees. For more information on the organization and their history, please visit their website at: <http://www.supimacotton.org/>

SCOPE AND CONTENT NOTE: Due to the importance of the cotton industry in Arizona, this collection has been reprocessed to improve access.

Of interest are the merger files in **Series I** which document the merger between the Arizona Cotton Planting Seed Distributors and Supima in 1978; the Seed Files, especially the Seed Testing Analysis files which record the tests run on seeds and list the records of seed sales and inventory; and an internal newsletter generated by the Association which reports on the latest statistics, crop reports and legislative issues regarding supima cotton.

From **Series III**, annual reports are from various research centers around the world and deal with cotton issues and topics while legislation files document individual bills filed in the house and senate that affected the cotton industry.

A comprehensive collection of publications and research reports were collected and include newsletters, monthly and annual journals and various other styles of publications that deal with the latest issues in the cotton industry at that time both nationally and internationally. Lastly, there are two folders of both identified and unidentified photographs in the collection.

This collection is divided into three series; **Series I: Supima Board Functions**; **Series II: Arizona Cotton Planting and Seed Distributors Records**; **Series III: Cotton Industry Files**. Files are arranged alphabetically within each series.

Series I: Supima Board Functions This series includes records directly relating to Supima Board activities and functions. **Series II: Arizona Cotton Planting Seed Distributors Records (ACPSD)** This series includes records from the Arizona Cotton Planting Seed Distributors, founded in 1949/1950 which later merged with the Supima Association of America in 1978. ACPSD, was responsible for growing, maintaining, and selling certified Pima planting seed to Pima producers in Texas, New Mexico and Arizona. These records include ACPSD Audit Reports, ACPSD Seed Inventory files, and other records such as by-laws and financial statements of this organization.

Series III: Cotton Industry Files These files relate to topics and concerns in the cotton industry as a whole. Records include annual reports, legislation, research files, research reports, and publications.
